7/30/94

Dear Herman,

Enclosed is the first page of a longer letter from a woman in Californisa who wants to make a T-shirt as I understand her from the cover of Case Open.

I've told her OK by me and that I'd ask you.

I do not know if your OK is needed. If I do not hear from you I'll assume it is OK, as I've told her.

She even prizes a painting of the cover!

In the same mail were two letters that may interest you.

One was from a retired FBI agent who tells me that after reading Case Open he is convinced that Oswald did not fire a shot.

The other is from an Australian pilot living in Singapore. He wants my other books and after reading them will send them to his father in Australia, who is 86.

He did not say where he got Case Open.

Best,

Harold
